

NOTICE

DECEMBER 7, 2018

NEW BLOCK TRADE MINIMUM QUANTITY FOR COFFEE “C”[®] FUTURES ARBITRAGE TRADES, AND CHANGE TO THE DAILY SETTLEMENT WINDOW FOR THE COFFEE “C” FUTURES AND OPTIONS CONTRACTS

Arbitrage Block Trades Involving Coffee “C” Futures:

Effective with the start of trading for trade date Monday, January 7, 2019, ICE Futures U.S., Inc. will implement amendments to the Exchange's Block Trade provisions to permit the execution of Block Trades in Coffee “C” futures contracts that are part of an arbitrage Block Trade against ICE Futures Europe Robusta futures contracts at a minimum trade quantity that is different from and lower than the current Block Trade minimum quantity for the contract. The Block Trade minimum quantity for Coffee “C” futures contracts is currently 250 lots; the new Block Trade minimum quantity for the Coffee “C” side of the arbitrage block trade will be 100 lots.

All Block Trades in Coffee “C” futures contracts (including those executed as part of an arbitrage trade) are subject to the same requirements applicable to Block Trades at the Exchange, including the restriction that Block Trades may only be executed on behalf of Eligible Contract Participants as defined in CFTC regulations, and that such trades must be executed at a price that is fair and reasonable. Coffee “C” Block Trades executed as part of an arbitrage Block Trade must be reported to the Exchange within 10 minutes of the execution time of the trade, and the report of the Block Trade must identify the trade quantity and the contract month of the IFEU Robusta futures contract involved in the arbitrage trade and the overall price of the arbitrage trade in cents per pound price terms.

Additional information on Block Trades at ICE Futures U.S. can be found at:

Change to the Daily Settlement Window for Coffee “C” Futures and Option Contracts:

Also effective commencing Monday, January 7, 2019, the daily settlement window for Coffee “C” futures and option contracts will be from 12:23 to 12:25 pm New York time each day. This change has the effect of harmonizing the settlement windows for the IFUS Coffee “C” and the IFEU Robusta futures and option contracts.

This change to the settlement window for the futures contracts means that Trade At Settlement (or “TAS”) trading in Coffee “C” futures contracts will end at 12:25 pm NY time, beginning on Monday, January 7, 2019. Trading hours for the Coffee “C” futures and option contracts are not impacted by the change to the daily settlement window.

Finally, Exchange will also implement an amendment to Exchange Rule 4.25(c)(iii) to provide that trading in the expiring Coffee “C” futures contract shall end at 12:25 pm NY time on the last trading day of the contract. This change to the last trading day hours for the contract will take effect with the March 2019 futures contract, for which the last trading day is Tuesday, March 19, 2019.
